Laundry Room Etiquette ...

- * Open for use 8 am to 10 pm
- * **Before** loading machines with detergent and items for washing or drying, insert your laundry card to be sure it and the machine are working.
- * **Open** the machine door and inspect the drum, inside the rubber around the opening, and the lint traps. Clean up may be required to prevent any problems with your load.
- * **After** loads are done, re-inspect the machines and perform any necessary clean up. If everyone would clean up when done with a machine, individuals would only have to clean once.
- * Promptly remove items so others may use the machines. If machines are not emptied in a timely manner, the next person may pile your load on the machine or folding table.
- * Do not leave unwanted items in the laundry room. If you have items to give away, you must handle that personally.
- * For refunds or to report non-working machines or machines that need cleaning, please call the vendor directly. When possible, place an "out of order" sign on the dirty or non-working machine. We have out of order signs in the office.
