NEWS FROM THE OFFICE...

The Visiting Nursing Association (VNA), has informed us they are discontinuing its immunization program and will not be holding an immunization clinic for flu shots at Washington Towers this season.

They advise anyone who needs a flu shot to contact their personal physician or local pharmacy.

If any organization reaches out to us and wants to hold a flu clinic here, we will let you know as soon as possible.

How to Use The Intercom

All visitors must contact the tenant they are here to see by pressing the unit Call Button on the intercom board.

The tenant pushes the "Talk" button to find out who it is, then pushes the "listen" button to hear the response.

Before allowing entry, confirm who you are letting in.

To unlock the door, push the "Door Lock Release" to either the left or right and **HOLD** it there to give your visitor time to open the right hand door. **If you let go of the door lock release too soon, or continually slide it back and forth, you are locking the door.**

We suggest you have a friend, family member, or caregiver practice with you. Please contact the office if you have any questions.

Important safety reminder:

Do not allow access to the building to anyone unless they are here to visit you or, the tenant they are here to see has asked you to let them in.

Even when you know the guest and whom they are visiting, you must have permission to let them in.
