## NEWS FROM MAINTENANCE...

### Snow Plowing and Salting

We will be maintain the parking lot and sidewalks by plowing, shoveling, and salting. For those who have vehicles, it is your responsibility to clean off your cars and clear the access areas around your vehicle.

We ask that you rotate your car, when possible, to areas that have been plowed. This will allow us to clear out more parking spots to avoid build up between and behind the vehicles.

Depending on the amount of snowfall, we may require all vehicles to be moved out of the lot so we can better clear and remove the snow. You will be given advance notice and we will empty the lot only when necessary.

For residents who drive very little or, not at all, in the winter, we ask that you be courteous and park your vehicle farther from the building, leaving open closer parking spots for those that go out on a regular basis. If you are going to be away for an extended period of time, we suggest that you leave the closer spots open and we ask that you notify the office. We may ask you to leave your car keys with the office or, at least have them available in your apartment, in case we have a significant snowfall and would need to clear the parking lot to plow.
