Howard DeCarlis Apt 521

Preventative Pest Treatment NOTICE

Notice to Residents of a building-wide pest treatment as part of our Integrated Pest Management Plan, which is required by HUD. We will be conducting building wide, barrier treatment to prevent any pest issues. They will be treating around baseboards in every unit. The common areas of the building will be treated as a precaution as well. You must leave your apartment while Ehrlich treats it and for **2-4 hours after**. 2 Hours is fine for most people but if you have breathing problems, it is recommend waiting for 4 hours as a precaution.

The lounge will be available as a waiting area while you are waiting to go back to your apartment.

THE INSPECTION DATES ARE:

Thursday, March 3rd, beginning at 11am, starting on the 6th floor and moving down to the 5th and 4th.

Friday, March 4th, 2022 beginning at 11am, starting on 3rd floor and moving down to 2nd and 1st.

Please be ready for the inspection.

You do not have to be home. Be sure to take your keys because they are instructed to lock your apartment when done.

No special preparation is necessary, aside from having a clear path & access around the unit. The tech may move or adjust sheets or bedding to inspect and will return it to the original position. Please eliminate as much clutter as possible to make this process easier and to be safer for the tech and yourself.

This is a required treatment. If you have a health, any other issue or any questions or concerns, please contact the office.
